# Quality Medical Document Services

**We KNOW our business!**

**Medical Scribes** play an essential role in bridging the technology gap, quickly becoming one of the fastest growing careers in the healthcare industry.

Scribes effectively increase efficiency in the documentation of patient encounters, providing primary clerical and nonmedical functions for a busy physician—thus, improving patient flow and satisfaction.

MDS offers realtime solutions addressing the importance of specificity in the health record while improving cashflow margins and efficiency.

We are a 33+ year, Kansas grown, medical document service specializing in the following services.

- **Medical Transcription Services**
  - Traditional dictation, web based digital dictation, and EHR narrative integration.
- **Medical Billing Services**
  - Cashflow is the lifeline of your practice. Why allow A/R recovery to affect your bottom line. We have full time CPCs on staff to manage all aspects of medical billing.
- **Medical Scribe Services**
  - Virtual scribes provide realtime physician-patient documentation. Call or email us today for more information.
- **Azalea Health**
  - Empowering providers with simplified and seamless technology that boosts ability to provide care—all while supporting work-life balance.

We take pride in the longevity we have established with our customers, providing quality services!
